**Quality and safety – we are OPAL**

# About us- the story of the brand

The Opal story was born from the desire to develop a Romanian brand that would contribute to supporting the national economy by developing packaging and protection solutions for goods at a higher level than similar imported solutions

## Our mission...

To bring to the market a wide range of products that contribute to the safety and protection of goods during their transport and storage, and thereby contribute to increasing confidence in Romanian products and to the development of our clients' businesses.

## Our vision...

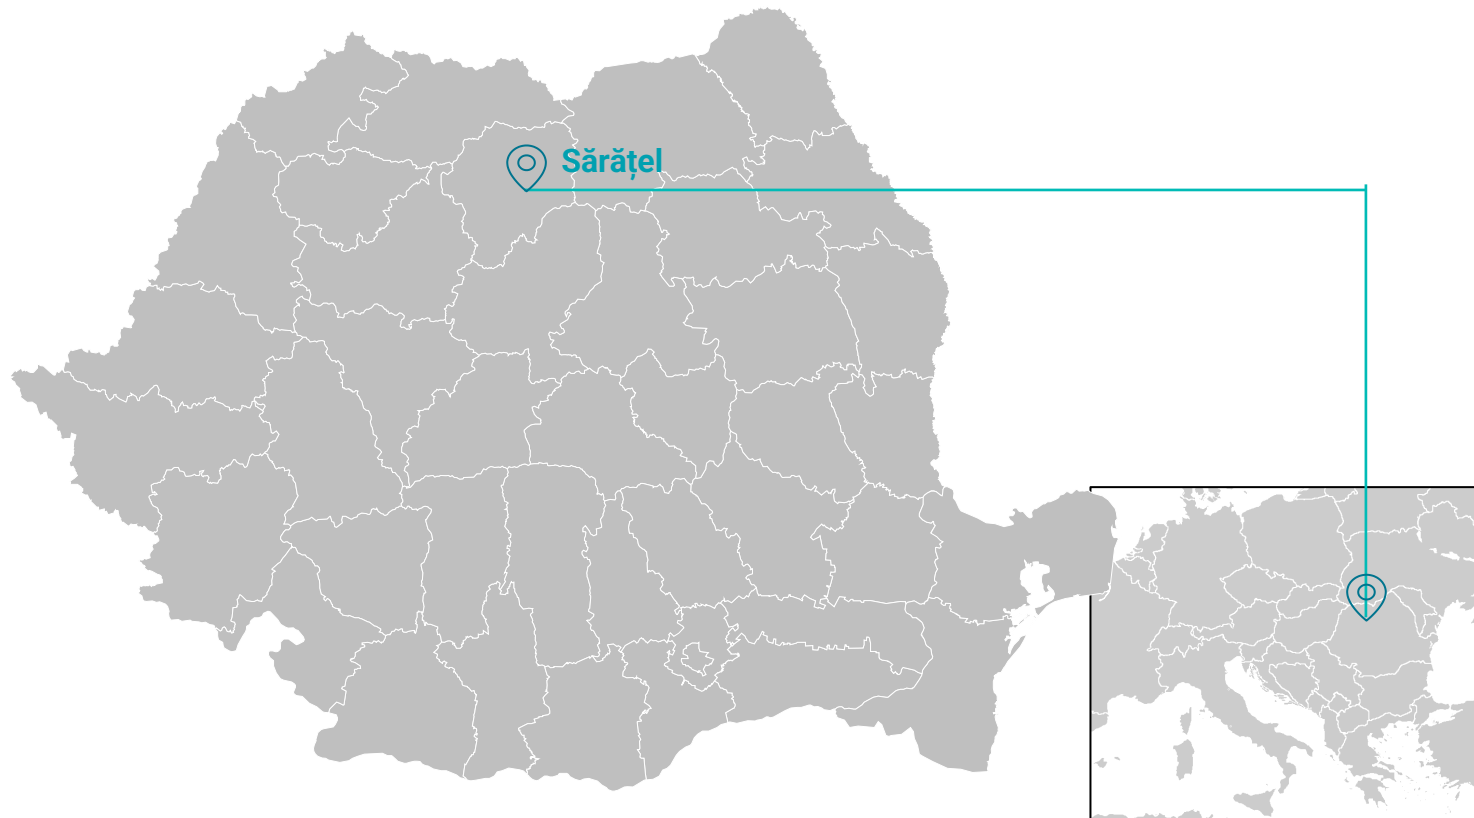

Our vision is to contribute to the growth and development of the economy in Romania, being the first option for those who need quality products for packing pallets.

## Our values...

- Collaboration – we develop sustainable partnerships with suppliers, but also with our customers.
- Responsibility- we undertake to offer quality products.
- Professionalism – we invest in specialized training for our employees.
- Innovation- we invest in state-of-the-art technology.
